CARELINE
One Heartbeat Away ®

EMPLOYERS & CORPORATE WELLNESS

REMOTE HEALTH EXAMINATION

Specialist check-ups, *on your premises.*

Preventive examinations for your teams without the lost half-day at a hospital: a CareStation on site, a trained care manager to run it and PMDC-verified specialists on call.

Careline · Pakistan & MENA
with 73Health Global, Finland · eEVA™ CareStation

73 HEALTH · CE · ISO 27001 · HIPAA COMPLIANT · GDPR · Microsoft Azure

THE CHALLENGE

Every hospital visit costs your team a working day.

- Annual and pre-employment check-ups take staff off the floor for hours.
- Factories, plants and remote sites are far from specialists.
- Early signs of high blood pressure and other conditions go unnoticed.
- Staff with long-term conditions miss follow-ups.

OUR ANSWER

A clinic that comes to your workplace.

Careline installs the eEVA™ CareStation at your site and staffs it with a trained care manager. Specialists examine employees remotely and live, records are kept for every visit, and leadership sees aggregated usage, never individual health data.

WHAT'S INCLUDED

Everything a real examination needs.

On-site CareStation
Camera, otoscope, stethoscope, SpO_2, thermometer and blood pressure.

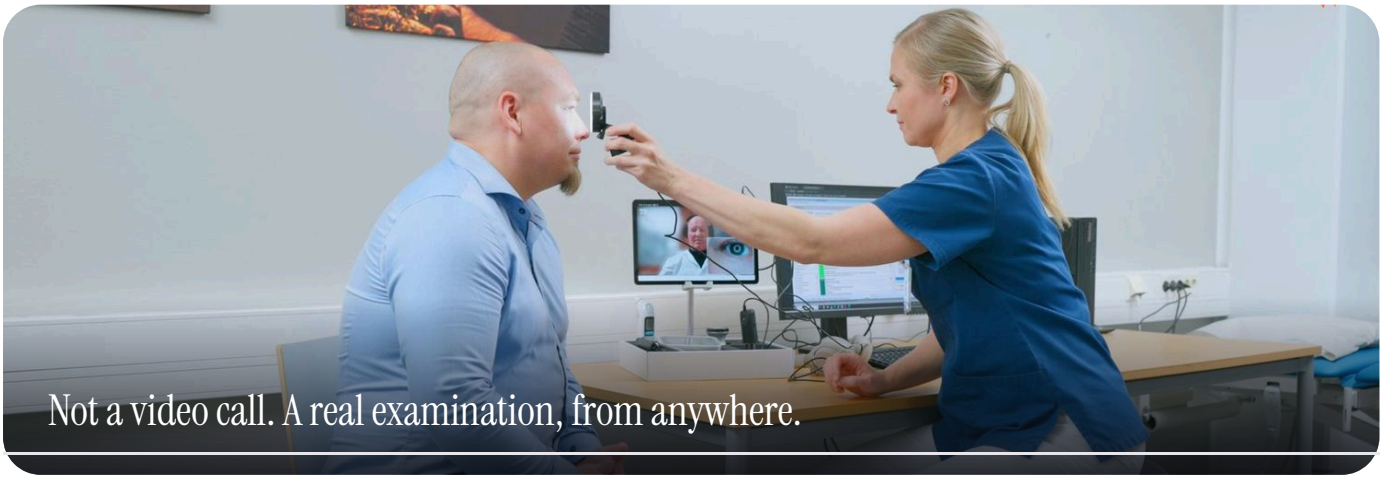

Trained care manager
Runs every examination and keeps employees at ease.

Specialists on call
PMDC-verified doctors examine remotely, live.

Screening drives
Blood pressure, SpO_2 and general health for whole teams.

Confidential records
Each employee's record stays private to them and their doctor.

Usage reporting
Aggregated sessions and instrument use for HR and leadership.

STEP BY STEP

How it works.

01

Scope

We agree sites, headcount and the check-up protocol.

02

15-day proof of concept

Real examinations on your premises, with your people.

03

Review

We review usage and feedback with your team.

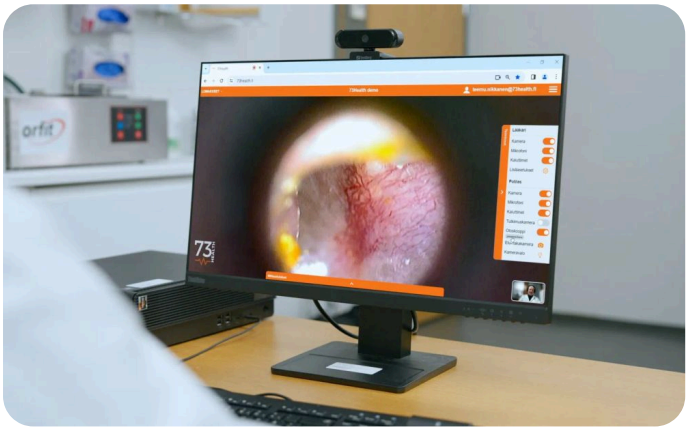

04

Scale

A 1, 2 or 3-year plan per CareStation.

THE TECHNOLOGY

The eEVA™ CareStation.

The doctor's screen: the otoscope image, heart and lung sounds, measured vitals and the patient on camera, all live.

In every CareStation

- HD exam camera
- Otoscope
- Digital stethoscope
- Pulse oximeter
- Thermometer
- Blood pressure

Coming to the CareStation

- ECG
- Ultrasound
- PEF meter

WHY CARELINE

Built to be trusted.

Finnish technology

eEVA™ CareStation by 73Health Global, Finland.

DRAP licensed

Careline holds a DRAP licence for medical device import.

PMDC-verified doctors

Every specialist is verified and trained in RHE.

Trained care managers

Certified through the RHE Academy.

PROGRAMMES

Programmes for your workforce.

Annual health check
Structured check-ups for every employee, on site.

Pre-employment exams
Examinations for new joiners without a hospital trip.

Chronic-care follow-up
Regular checks for staff with hypertension, diabetes or heart conditions.

Remote-site coverage
Specialist access for plants, warehouses and field teams.

QUESTIONS

Frequently asked.

Do we need a doctor on site?
No. A trained care manager runs the station; specialists examine remotely.

Who sees employees' results?
Only the employee and their doctor. Leadership sees aggregated usage.

How do we start?
With a 15-day proof of concept on your premises before any commitment.

Can it cover several sites?
Yes. Plans are per CareStation, so you can start with one site and add more.
