One Heartbeat Away ®

PHARMACY CHAINS

REMOTE HEALTH EXAMINATION

A clinic in *every branch.*

Turn pharmacy branches into examination points: a CareStation at the counter, a trained care manager and a remote doctor on call. A new service for your customers and a reason to come back.

Careline · Pakistan & MENA
with 73Health Global, Finland · eEVA™ CareStation

73 HEALTH · CE · ISO 27001 · HIPAA COMPLIANT · GDPR · Microsoft Azure

THE CHALLENGE

Customers already ask your pharmacist for medical advice.

- Many neighbourhoods have no specialist nearby.
- Chronic-care customers need regular checks between doctor visits.
- Pharmacists can't examine or prescribe beyond their role.
- Growth beyond dispensing needs a credible clinical service.

OUR ANSWER

A real examination, at the counter.

A CareStation in the branch lets a PMDC-verified doctor examine customers remotely and live, with measured vitals and a digital prescription. Your branch becomes the place the neighbourhood goes for care.

WHAT'S INCLUDED

Everything a real examination needs.

CareStation in branch
A full clinical exam with measured vitals at the pharmacy.

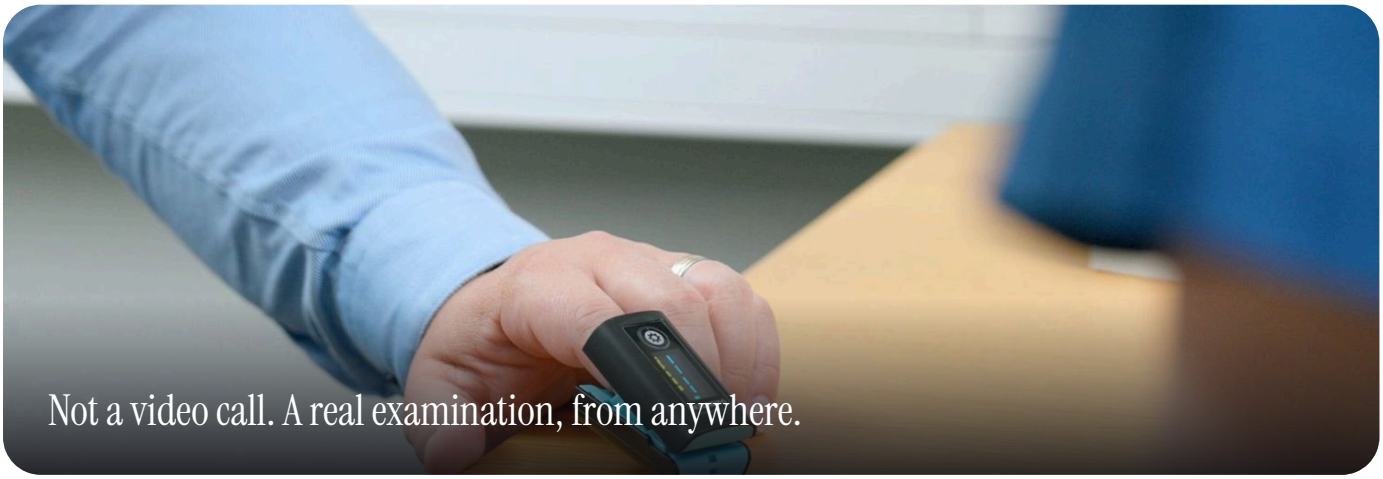

Remote doctor on call
PMDC-verified specialists examine live and prescribe digitally.

Care managers
Trained staff run every examination.

Your brand
White-label records and patient journey under your pharmacy's name.

Chronic-care checks
Blood pressure and SpO_2 follow-ups between doctor visits.

Branch reporting
Sessions and services per branch.

STEP BY STEP

How it works.

01 — 02 — 03 — 04

Pick branches
Start with one or two high-footfall branches.

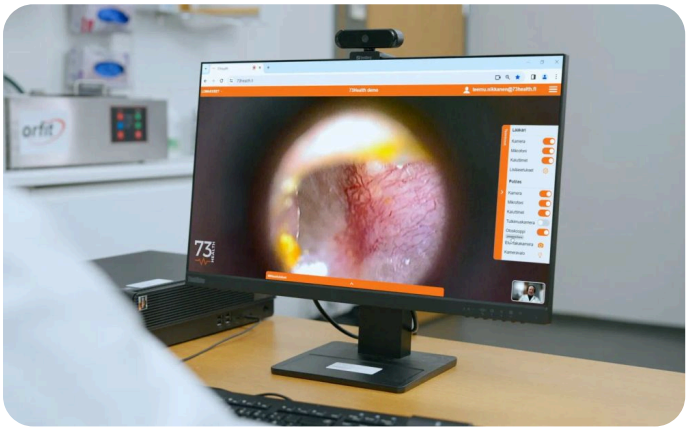

15-day proof of concept
Real customers, real examinations.

Review
Usage and customer feedback per branch.

Roll out
Plans per CareStation across your network.

THE TECHNOLOGY

The eEVA™ CareStation.

The doctor's screen: the otoscope image, heart and lung sounds, measured vitals and the patient on camera, all live.

In every CareStation

- HD exam camera
- Otoscope
- Digital stethoscope
- Pulse oximeter
- Thermometer
- Blood pressure

Coming to the CareStation

- ECG
- Ultrasound
- PEF meter

WHY CARELINE

Built to be trusted.

Finnish technology
eEVA™ CareStation by 73Health Global, Finland.

DRAP licensed
Careline holds a DRAP licence for medical device import.

PMDC-verified doctors
Every specialist is verified and trained in RHE.

Trained care managers
Certified through the RHE Academy.

PROGRAMMES

Services you can offer.

Walk-in examination
A remote doctor's examination without an appointment elsewhere.

BP & diabetes follow-up
Regular measured checks for chronic-care customers.

Family health checks
Children's ear, throat and skin examinations.

Medication review
A doctor reviews prescriptions with the customer present.

QUESTIONS

Frequently asked.

Do we need a doctor in the branch?
No. A trained care manager runs the station; the doctor examines remotely.

How much space does it need?
The CareStation fits on a counter or a small consultation corner.

Whose name is on the records?
Yours. Records and the patient journey can be white-labelled.

How do we start?
With a 15-day proof of concept in one or two branches.
